**BURNING DESIRE<sup>TM</sup>**

## **BURNING DESIRE™**

1. Follow the separate directions for selecting the correct game on your Playaround™ 2-in-1 Cartridge.
2. With the power off insert cartridge into game console.
3. Connect the left joystick. When playing hold the joystick with the red button at the upper left.
4. Turn power ON. If no picture, check your game and TV connections and then repeat steps 1, 2 and 3. If everything is OK then push reset or the fire button on the joystick to begin the game.

## **GAME PLAY**

The object of this game is to rescue the Damsel in Distress from the flaming pyre by maneuvering the helicopter with the joystick and by pressing the fire button, putting out both flames with our hero's fire extinguisher. At the same time, you must avoid getting hit by the rocks being thrown at you by the bad guys. And you must avoid running out of fuel.

Once both flames are low enough, our lady will start bobbing her head up and down, and by moving the helicopter so that our hero's member is directly over her mouth, she'll grab hold of him, and by maneuvering the helicopter aloft, (push joystick up) the two will fly off on a trip around the world.

You have three (3) turns per game. Moving the joystick left, right, up or down will result in the corresponding movement of the helicopter.

If you squirt either of the bad guys, he will become temporarily disabled and stop throwing rocks.

However, if you take too long, she'll be consumed by the flames and you'll have to start putting out the flames all over again. If you squirt the maiden by mistake, the flames rise back to their original height.

If you get hit by a rock or run out of fuel (fuel level is indicated by a horizontal line up in the scoreboard at the top of the screen) you lose one of your three turns. Remaining turns are indicated by the left hand number at the top, and the number of successful rescues are shown on the right. A successful rescue will also result in a fuel refill.

Once a rescue has been accomplished, the screen graphic will change and by moving the joystick up and down, you will enjoy a hero's favorite reward.

You can freeze the play at any time by moving the B/W — Color switch to the "B/W" position. To resume play, return it to the "Color" position.

### **DIFFICULTY**

There are eight (8) difficulty levels. Use the game select switch to choose. The higher the number, the faster the rocks fly, the faster you use fuel, and the faster she will be consumed by flames. With the "Left Difficulty" switch in the "expert" or "B" position, you must have better aim when you try to pick up the maiden, after her head starts bobbing.

## AFTER PLAY

The world of adult electronic video games is a most exciting concept. Consenting computer images stimulate, sharpen the reflexes and challenge the competitive urge.

Until recently video games have been considered by many to be "child's play" and were marketed as such. Playaround™ 2-in-1 Games are for adults only (so you don't have to compare your score with your kids).

We have designed our "Adult" games to be fun, challenging, entertaining, satisfying and naughty. Our own team of design engineers has developed a line of games that don't just stop at "Adult," but push your video game console to the limit. You'll see graphics of a quality that you probably have never seen before. You'll hear music and sound effects where you've come to expect only an occasional "bleep" "bleep."

It is our desire to provide you with not only the finest in adult video games, but with a level of quality—playability, graphics, effects, challenge and humor—rarely found in any video game—adult or not. We want you to laugh, smile a lot, have a challenge and enjoy!
